

Hi!

You may be aware of Highland Reeds, a company based in Scotland with the aim of making life easier for pipers. You may even use some of my products. If you do, I hope you are happy with them. Please do not hesitate to let me know. My website has information and videos on all of my products and is worth a look. It can be found at www.highlandreeds.com

This is my first newsletter and I do hope you are happy to receive future communications from me. If not, then simply click the 'Unsubscribe' button, below.

I was proud to be Pipe Major of the Queen's Own Highlanders from 1986 to 1992. This photograph shows me in the Pipe Major position at a parade during that period. On retiring from the British Army I set up Highland Reeds. My drone reeds and moisture control systems have helped pipers and pipe bands achieve a superior tone and stay in tune. I feel now is the time to make more pipers aware of my products.

Thank you.

Bruce Hitchings MBE BEM.
